

DECLARATION OF CONFORMITY OF MATERIALS AND OBJECTS INTENDED TO COME INTO CONTACT WITH FOOD PRODUCTS

We hereby declare that:

the products ... PP containers as per attached list supplied by LARPLAST are suitable for packaging food involving migrations with the simulants A B C D

** references in Directive EEC 82/711 and Directive EEC 85/572 and subsequent updates*

comply with

all pertinent legislative provisions, with particular reference to the following European Union legislation:

- Regulation (CE) 1935/04
- Regulation (CE) 1895/05
- Regulation (CE) 597/08
- Regulation (CE) 2023/06
- Regulation (CE) 10/2011

The plastic is made from the following materials and substances:

*(mark in bold print the substances that are subject to restrictions and/or specific migration restrictions)
 (declare the presence of any recycled material)*

PP and substances in the positive lists of Regulation EC 10/2011

We declare that:

- the material does not contain substances subjected to restrictions imposed by the aforesaid legislation and complies with the global migration limits
- the material contains substances subjected to restrictions imposed by the aforesaid legislation and complies with the global migration limits

In the following test conditions:

Simulant**	Test time** and temperature**
A B C D	.5 minutes at 52°C..... for short contact ..3 days at 20°C.... for prolonged contact for short contact for prolonged contact

*** references in Directive CE 82/711 and Directive CE 85/572 and subsequent updates*

The global migration limit and the other specific restrictions to which monomers and/or additives in the material may be subject are complied with in the aforesaid conditions of use. The affirmation is supported by analytical tests conducted in accordance with Directive CE 82/711 and Directive 85/572 and subsequent updates or on the basis of calculations made considering the contents of the substances subjected to migration limits. The calculations assume that 1 kg of food comes into contact with 6dm² of packaging material.

The product contains substances subject to Regulation CE 1333/2008 and Regulation CE 1334/2008: aromas and additives according to food legislation.

The product does not contain substances subject to Regulation CE 1333/2008 and Regulation CE 1334/2008: aromas and additives according to food legislation.

Can the product be used together with the foodstuff in a traditional oven? Yes No
If Yes, indicate maximum time and temperature

Can the product be used together with the foodstuff in a microwave oven? Yes No
If Yes, indicate maximum time and power 5 minutes at 52°C

Can the product be used together with the foodstuff at low temperatures? Yes No
If Yes, indicate minimum time and temperature (2 days / -5⁰)

The company declares the technological suitability of the product for the purpose for which it is intended.

In support of the above, the Company declares that the customer and the relevant authorities can consult the following:

- reports on tests conducted on final packaging
- other supporting documentation as specified by article 16, sub-section 1 of Regulation (CE) N.1935/2004.

Storage Conditions

Products should be stored in cool and dry place, shouldn't be stored in wet areas. Additionally, products shouldn't be exposed to direct sunlight and high temperature.

This declaration is valid from the date reported below and must be replaced if substantial changes are made to the production of the material that change essential conformity requirements or when the cited legislative references are changed and updated so that a new conformity test is required.
